

IV SAN BERNARD[®] USA

Fine Italian quality pet bathing products for routine bathing

Traditional Line

It's as easy as 1 - 2 - 3

1

Determine the appropriate shampoo & conditioner for your breed.
SHORT COATS need LEMON, **MEDIUM COATS** need BANANA
LONG COATS need GREEN APPLE.

2

SHAMPOO: Dilute 1 part shampoo to 3 parts water in a clean container.
Wet the coat & apply shampoo. Soak for 5 full minutes. Rinse.

3

CONDITIONER: Dilute 1 part conditioner to 3 parts water in a clean container.
Apply conditioner to coat. Soak for 5 full minutes. Rinse.

MOST COMMON BREEDS BY COAT TYPE

Bolonese
Chinese Crested
Coton De Tulear
Havanese
Japanese Chin
Lhasa Apso
Longhaired Dachshund
Maltese
Papillon
Poodle
Puli
Shih Tzu
Silky Terrier
Yorkshire Terrier

APPLYING SHAMPOO & CONDITIONER

For best results apply the shampoo & conditioner in the following order: 1. belly & chest 2. legs and feet 3. neck & face 4. back and bottom. Let soak for **5 full minutes**. These are the sebaceous areas where most dirt and toxins enter the pet's system.

LEMON for short coats.
BANANA for medium coats.
GREEN APPLE for long coats.

Frequently Asked Questions:

Why are there different products for different breeds? All pet coats need oils, minerals and collagen to thrive. However short coats need more oils, medium coats need more minerals and long coats need more collagen. These products are created to provide the right balance of each for all coat types.

Why do I have to bathe per your instructions? Since pets absorb dirt & toxins from the ground up into their sebaceous areas (tummy, feet, legs and other areas with less hair) it is important that the products are applied there first & allowed to soak for 5 min.

Why do I have to let the product soak for 5 full minutes? In order to allow the shampoo to remove the dirt, it takes 5 minutes for the shampoo to attach to the dirt so it will all rinse off. When bathed for the proper amount of time you should never have to give a second bath.

Why do I have to use conditioner? It is important that you give back the oils, minerals and collagen that were washed away during the bathing process. For dry skin or flakes you may leave the mask on longer before rinsing for a deep intense treatment.
